### ABOUT ME

I am a writer and front-end web developer based in Toronto, Canada. With a background in journalism and an eye for design, I enjoy bringing art and storytelling to the forefront of everything I program. To me, there is nothing more rewarding than being able to use code as yet another means to express myself.

### SKILLS

HTML  
Javascript/JQuery  
React  
RESTful API  
Responsive Design  
Accessibility  
Github  
Copyediting  
Creative  
Problem-solving skills  
Attention to detail

### AWARDS

2017 **Toronto Heritage Award**  
nominee in the Short Publication category

Five-time recipient of the **Hope for Children** scholarship

### EDUCATION

**Juno College** — *Web Development Bootcamp*  
AUG - OCT 2020

**Juno College** — *Accelerated Javascript*  
JUN 2020

**Juno College** — *HTML/CSS*  
MAR - APR 2020

**Humber College** — *B.A. in Journalism*  
2013-2017

### PROJECTS

**GIPHY Generator** — *Juno College*  
HTML5 | CSS3 | React | RESTful API  
Created a search engine using data from the GIPHY API. The app displays the top 18 GIFs according to user input.

**Pokemon Generator** — *Juno College*  
HTML5 | SASS | JQuery | RESTful API  
Pair project. Worked with the Pokemon API to create a Pokemon generator based on user input, displaying data on a Pokedex screen.

### EXPERIENCE

**The Lyre, 2018** — *Associate Editor*

- Helped launch UofT's newest literary magazine
- Sorted through hundreds of fiction and non-fiction submissions to curate works
- Responsible for setting the tone of the magazine
- Worked with authors and editors-in-chiefs to copyedit literary pieces on deadline

**Torontoist, 2015-2017** — *Newsstand Writer/Contributor*

- Writer for the newly launched daily newsletter
- Worked closely with editors to provide copy on deadline
- Responsible for chasing stories, booking and interviewing sources, and transcribing interviews
- Moderated Torontoist's Twitter account and comments on Torontoist.com
- Responsible for selecting and posting "Photo of the Day"
